Serving Our Members for 60 Years

Alexander

President's Column by Rob

I hope to see a record turnout at the March 15th membership meeting at 7 PM to vote on the board proposed Bylaw changes as described in the last newsletter. A good amount of time and effort has gone into the Bylaws as they are written and into the changes we are proposing.

The New Hampshire Wildlife Federation Executive Board is soliciting new members at this time. The Peterborough Sportsman's Club is a member and we urge anyone with interests in the outdoors in New Hampshire to consider joining. This includes those who hunt, fish, trap, hike, camp or use the beautiful outdoors in our State. The NHWF is a major lobbyist in Concord with the interests of the above mentioned foremost on their agenda. If you become a member for \$25 the NHWF will rebate our Club \$10. It is a good way to support one of our primary lobbies in Concord and at the same time return some funds to our Club. If you are interested, please get in touch with me for details.

The second weekend of key/badge handouts went very well with over half of the paid membership picking up their materials thereby saving the Club over \$100 by the time all are disbursed. If you did not make it in to collect your key and badge for

2007, you may do so at any E-board meeting typically held the first Thursday of each month at 7 PM. We are also discussing the possibility of having club office hours (the good kind!) for this and other administrative chores. More details on this next issue. The locks are scheduled to change on or about March 10. Please continue to use your 2006 gate/clubhouse key until it does not work. If you have questions about picking up your key/badge call me or Jim Schmidt.

On a personal visit to the pistol range last weekend I happily noticed hardly any brass on the ground, the trash emptied and target backers free of used targets. It is good to see our members taking pride and ownership of the ranges on which we shoot. Continue to pick up your brass, refill the wood box if you use it, remove your targets, empty the trash if it needs it, and conduct yourself like a proud Club member by doing what needs to be done. It is really a major part of being a member of a self supporting club like ours. Thanks.

Newsletter Production Schedule

Over the past year the Club's Communications Committee has instituted a number of new information distribution systems.

The club's website has been in operation for nearly a year and provides a valuable method of information distribution.
